

# Trauma East Voices

## Patients at the heart of what we do

We are interested in hearing about the experiences of patients and their loved ones using the trauma system in the East of England.

We have created the Trauma East Voices patient experience group that meets regularly to discuss this, highlight great care and suggest improvements.

Please come along to our next meeting and share your story with us, because your feedback matters and helps us to make a difference.

For details of the next meeting, and to register your interest, please see our website: [www.eotraumanetwork.nhs.uk](http://www.eotraumanetwork.nhs.uk)  
Or call: 01223 257290

The group will meet quarterly
